Pre-task 1:

Please watch the Flipgrid video introductions of your teachers and fellow students and you’re your own introduction video here: [https://flipgrid.com/9784f108](https://flipgrid.com/9784f108)

The password will be sent to you by email.

It is very simple. Watch our videos and try to do your own. Only if you encounter problems, watch the tutorial below. It contains more information than is needed for this task and may therefore confuse you, if you watch it first.

Here you can find a Flipgrid tutorial: [https://www.youtube.com/watch?v=-aZ523-HHBg&feature=youtu.be](https://www.youtube.com/watch?v=-aZ523-HHBg&feature=youtu.be)

Pre-task 2:

Familiarize yourself with the Curriculum of Professional Teacher Education (attached).

Answer the following questions in a Word document with your own name on it:

1. What do you think about the learning objectives and contents in general? What are you most interested in?
2. Is there something that you find particularly challenging?
3. Which learning objectives or parts of them you feel you already master? Where did you learn this?
4. What are your strengths and development needs?
5. Note down any terminology that you find hard to understand so that we can discuss them during the orientation days.

Send the document to taok.tamk@tuni.fi by 8 May 2020.
