

## Tampere3

### Impact through Integration

**We are working to solve society's major challenges and create new opportunities by**

- linking pioneering research and innovation,
- promoting interdisciplinary education and life-long partnerships,
- generating unique expertise in industrial and public-sector implementation.

As an attractive higher education community, we will meet these long-term goals by

- strengthening the international networking culture and creating a digital campus ,
- developing novel ways of working and crossing boundaries in all our endeavours,
- driving sustainable societal renewal in a measureable way.
