

Curriculum 21-24 presented in this document includes all courses, which are taught in English. The language of instruction of other courses at the Language Centre is generally Finnish, and therefore sufficient Finnish skills are required. However, most of the more advanced classes in other foreign languages, e.g., Spanish and German, are taught in the target language, thus students with sufficient knowledge of the language may participate in those courses. The entire curriculum 21-24 can be found on the Finnish site of the Communication and Language Studies: [Viestintä- ja kieliopinnot](#) under the headline Kielikeskuksen opetussuunnitelma, siirtymäsäännöt ja vastaavuustaulukot.
