ISEP STUDY ABROAD

STUDY IN THE U.S.A

ISEP offers programs at 100+ institutions across 40+ states. Spend time near the beach in California or Florida. Enjoy a major city like New Orleans, Baltimore, or Chicago. Get outside hiking in the Rocky Mountains, spend a day on the lake in Missouri, or ski in Vermont. It's all possible with ISEP.

WHY ISEP EXCHANGE?

- ISEP Exchange programs include tuition, housing, and 19+ meals per week, helping students save on costs that are typically higher when studying in the U.S.
- A Student Services Officer supports each student through the application process, pre-departure advising, questions and concerns during the program, and returning home.
- ISEP is the visa sponsor and provides visa application advising for students.
- Our partners include large public institutions, small private liberal arts campuses, and urban campuses in major cities.

TYPES OF INSTITUTIONS

- **State Flagship Universities**: Leading public research institutions with large campuses and strong campus culture
- **Public Institutions**: State-funded colleges and universities, often located in cities or larger towns
- **Liberal Arts Colleges**: Privately-funded and usually small, with a focus on the academic experience and a community-oriented environment
- **Historically Black Colleges & Universities (HBCUs)**: Founded to expand access to higher education for Black students, now welcoming students of all races and nationalities

THE ON-SITE EXPERIENCE

Our programs include on-site orientation, student activities, campus events, and access to extensive campus facilities. All our sites have a designated ISEP coordinator who will:

- Guide students through course enrollment
- Assist with housing arrangements
- Help with any problems or concern
- Connect students to campus services

ACADEMICS

Coursework is available in almost every field of study

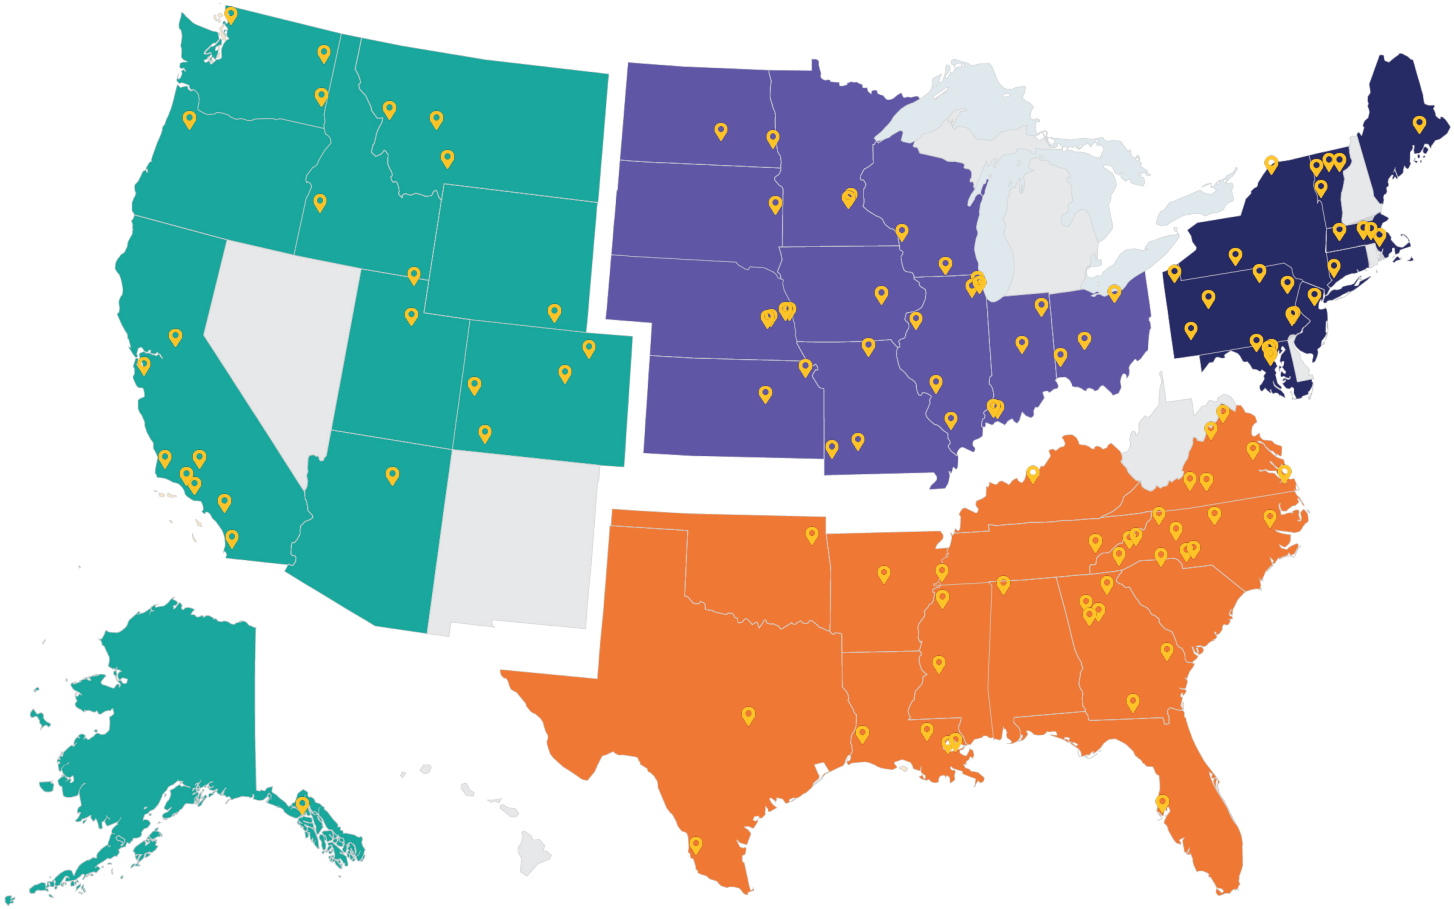

- American Studies
- Biology
- Business
- Computer Science
- Education
- Engineering
- English
- Fine Arts
- Health Sciences
- History
- Journalism
- Political Science
- Psychology

HOW IT WORKS

- Students list up to 10 schools they are interested in attending and receive a placement based on availability.
- Students pay an application fee, a placement acceptance fee, and a fee for ISEP's Health & Safety Program.
- ISEP's Health & Safety program provides 24/7 emergency support, crisis management, and comprehensive health insurance at a competitive price.
- Students pay their home institution for tuition, housing, and meals, which cover an inbound exchange student.
